

# intugo<sup>®</sup> case study

## Illinois Based Company

### Client Situation:

- Had an ongoing operation in India
- Outsourcing partner claimed to have 15 dedicated programmers however the client realized that was not true
- Tired of the outsourcing headaches
- Seeking five programmers in an operation that they control

### Intugo Solution:

- Five programmers hired and operation was set up in two weeks
- Client maintains control of their software development operation
- Client utilizing shared space in “the Intugo Accelerator”
- Client recently renewed their contract
